**ELECTRICITY**

Mk10M

Class 1

Three Phase WC Smart Meter

Built around an enhanced metering OS platform, Mk10M has high-grade measurement engine with smart grid solutions, high data storage, data processing and modular communication capabilities.

| **Key Features**

| AMI READY | ANTI TAMPER | DLMS READY | LARGE DATA STORAGE | MODULAR COMMUNICATIONS | NEUTRAL CURRENT MEASUREMENT | UPGRADEABLE | DISCONNECT RELAY |

Mk10M

Class 1

Three Phase WC Smart Meter

180mm (W)

280mm (H)   95mm (D)

Weight: 2.2kg

Standards and Compliance

- Class 1
- IEC 62052-11, 62053-21, 62053-23, 62052-31
- EN 50470-1, 50470-3
- CLC/TR 50579
- WELMEC 7.2
- DLMS Compliance
- IDIS Compliance*

Measurement

- 3 phase 4 wire
- Neutral current measurement

Voltage

- Nominal voltage: 100V-110V, 220V - 240V
- Operating range: 80V-278V
- Withstand range: 456V
- Impulse voltage: 8kV IEC, 12kV (SP1618 Method)

Current

- WC range:
  - With disconnect relay:
    5/100A, 10/100A
  - Without disconnect relay:
    5/120A, 10/120A, 20/160A
- Phase current measurement sensor: Internal CT
- Neutral current measurement sensor: Shunt

Power Consumption

- Voltage circuit: <10VA/phase, 2W @ Vn
- Current circuit: <4VA/phase @ In

Frequency

- 45Hz - 65Hz

Inputs/Outputs Configuration

- 4 x LED indicators
- 1 control input, 1 control output, up to 2 pulse inputs/outputs

Relay

- 100A, UC3 compliant

Battery

- Internal lithium battery
- Option for external for backup
- Option for additional Supercap (72 hours)

- Backup time: 5 years without power (23°C)
- Battery shelf life of 15 years at 23°C

Real-time Clock

- Precision clock accuracy: within 15 seconds per month at 23°C (IEC 61038)
- Conform to IEC 62054-21

Data Memory

- 8MB of non-volatile memory

Display

- 8 Characters of seven-segment display (11mm x 6.6mm)
- 4 Characters of starburst display for screen ID (5mm x 3.5mm)
- Display available without main power
- Option for backlight

Keypad

- Option of silicone keypad

Measured Values

- 3 elements 4 quadrants
- Import/Export/Absolute: Wh, varh and VAh
- Per quadrant Wh, varh and VAh
- Power: W, var, VA, Vrms, Irms
- Power factor, frequency, phase angle

Power Quality Indication

- Total Harmonic Distortion (THD)
- Instantaneous RMS voltages, currents, frequency
- Per phase instantaneous powers A+ A- R+ R-
- Per phase average powers A+ A- R+ R- (T=10mn)
- Aggregate instantaneous powers A+ A- R+ R- S+ S-
- Per phase voltage quality
  - Sag/Swell and missing voltage detection
  - Programmable thresholds and filtering time
- The meter recorded voltage quality profile up to 50 set sag/swell event
- The meter recorded THD Current & Voltage and calculated TDD Current per phase and Total

LCD Configuration

- Up to 100 user-defined screens of any meter parameter
- Up to 3 display sets
- Definable enunciators

Load Survey/Profile

- Up to 90 channels and 10 independent surveys
- Intervals programmable from 1 to 1440 minutes
- Energy instantaneous readings
- Ability to store average/minimum/maximum values for interval duration

Time of Use

- 8 rates plus unified rate
- Daily, weekly, monthly, yearly and special days
- Maximum of 50 special days and 6 seasons
- Block or rolling maximum demand (kW)
- Time of maximum demand

Calendar

- Supports Daylight Saving time
- Supports Gregorian or Persian calendars
- RTC and frequency synchronisation

Tamper Detection and Alarms

- Provision for sealing with conventional wire or plastic seals
- Reverse current detection
- Option for magnetic tamper detection
- Option for lid/terminal cover detection
- Line and neutral current unbalance detection
- Advanced tamper detection and logging
- Pre-programmed alarms for meter self-check
- Alarms trigger LEDs, enunciators, communications event
- Alarms are stored in event logs

Security

- AES-GCM-128

Operation Mode

- Postpaid/Prepaid

Communications

- Optical port: FLAG (IEC 62056-21)
- Option for built-in communication module:
  - RF: 300MHz to 950MHz (configurable)
  - Sub-GHz 868MHz and ISM 2.4GHz*
- Supports GSM/GPRS/EDGE
  - 850/900/1800/1900MHz
- Supports local and remote upgrade and configurations

Protocol

- DLMS/COSEM

Software

- EDMI MultiDrive, MIRA Config and MIRA HES softwares available for large scale AMI and AMR solutions (Windows® compatible)

Construction

- Meter Base:
  - Meter base is made of UV-resistance, high impact-resistance and self-extinghuishing polycarbonate. Color is Cool grey.
- Meter Cover:
  - Meter cover is made of UV-resistance, high impact-resistance and self-extinguishing polycarbonate. Security sealing is provided and the gasket of the meter cover is used for protecting the meters against moisture, dust and insects; the gasket is weather and made from aging resistant material (EPDM black).

Environmental

- Specified operating range: -25°C to +70°C
- Operating range limit: -40°C to +70°C
- Storage range limit: -40°C to +85°C
- Relative humidity: Up to 85% mean, 95% non-condensing for 30 days
- Ingress protection: IP54

*For future
